Mohamed Abdo Abdel-Sattar

(AI & Systems Engineer)

Alexandria, Egypt (Willing to relocate) | Nationality: Egyptian

mohamedabdo962002@gmail.com | +201023821588 | linkedin.com/in/Mohamedabdo103

Profile

A motivated AI and Systems Engineer with excellent technical, communication, and interpersonal skills. Seeking to leverage a strong foundation in network design and hands-on experience with Artificial Intelligence applications to drive innovation and gain valuable experience in a professional, forward-thinking setting.

Education

Faculty of Engineering, Alexandria University Graduated 2025

- Major: Communications and Electronics Engineering
- Cumulative GPA: 3.56/4.0

Competitions & Awards

DIGITOPIA 2025 Competition Certificate

- Awarded **First Place** in the field of Artificial Intelligence for the development of an advanced, AI-powered graduation project.

Projects

Graduation Project: Smart Wheelchair with Multiple Control Modes Demo

- Led the development of an AI-powered smart wheelchair, designing and deploying computer vision algorithms for real-time eye-tracking control.
- Executed full hardware and sensor integration, ensuring seamless, low-latency coordination between multiple machine learning control modes, embedded hardware systems, a mobile application, and healthcare monitoring features.

NASA Space Apps Challenge: World Away - Exoplanet Hunting with AI

- Built an interactive web application utilizing Streamlit and deep learning (TensorFlow) to classify exoplanets based on complex observational datasets.
- Leveraged machine learning to extract predictive features and identify potential candidates, providing users with an intuitive interface to explore, visualize, and export scientific results.

DEPI Graduation Project: Comprehensive Network Design and Implementation

- Designed and implemented a secure and scalable network architecture.
- Configured advanced settings including SSH, DHCP, NTP, SYSLOG, VLANs, Inter-VLAN Routing, Subnetting, OSPF/BGP routing protocols, Switch Security, Access Control Lists (ACL), and VPNs.

Professional Courses & Training

- **Cisco Cybersecurity Engineer @ DEPI** Jun 2024 - Oct 2024
  - Cisco CCNA V7 Routing and Switching (120 Hours)
  - Cisco Cyber-Ops Associate (60 Hours)
  - Soft and Freelancing Skills (50 Hours)
- **MCSA** Nov 2024
- **Linux Administration** Sep 2024
- **Network+ (50 Hours)** Aug 2023

Certifications

- Certified "Cisco CCNA V7 Routing and Switching" from DEPI.
- Certified "Cisco Cyber-Ops Associate" from DEPI.
- Certified "Linux Administration" from Mahara-Tech.
- Certified "Introduction to Network Security" from Mahara-Tech.
- Certified "C Language & Python" from Cisco.
- Certified "IoT" from NTI.

Skills

AI & Programming: TensorFlow, Computer Vision Concepts, Machine Learning pipelines, Python, C Language

Networking & Infrastructure: Cisco Routers and Switches, Routing protocols (BGP, OSPF), Network Address Translation (NAT), Spanning Tree Protocol (STP), IPv4 and IPv6, LAN/WAN/MAN Systems

Systems & Security: Windows Server 2019, Linux Administration, Fundamentals of Network Security

Interpersonal & Soft Skills: Leadership, problem-solving, adaptability, empathy, emotional intelligence, active listening

Languages: English (Very Good), Arabic (Native)
